Summary

Dynamic Frontend Engineer with 3+ years of experience specializing in building scalable, high-performance web applications with React and Next.js. Proven track record in improving code maintainability, boosting SEO-driven organic traffic, and enhancing user experience through robust testing and performance optimization. Adept at collaborating in agile, cross-functional teams to deliver impactful digital products.

Technical Skills

Languages & Runtimes: JavaScript (ES6+) · TypeScript · HTML5 · CSS3

Frameworks & Libraries: React · Next.js · Redux Toolkit · TanStack Query · React Router · React Hook Form

Styling & UI: Tailwind CSS · SCSS · Headless UI · Framer Motion · GSAP

Testing: Jest · React Testing Library · Playwright (E2E)

Tools & Methods: Git · Agile/Scrum · RESTful APIs · Web Performance · SEO · Accessibility (a11y)

Work Experience

Vehenceit

Frontend Engineer

Jan '24 - May '25

- Engineered a full refactor of the front-end architecture, increasing code maintainability by 25% and cutting feature development time by 15% in agile sprints
- Developed and launched SEO-optimized pages using React/Next.js, resulting in a 20% increase in organic traffic and improved user engagement metrics
- Slashed user-reported bugs by 30% by implementing a comprehensive component testing strategy with Jest and React Testing Library
- Optimized application performance, leading to a 40% improvement in Lighthouse scores and faster load times, directly enhancing user satisfaction
- Architected efficient data flow by integrating RESTful APIs with TanStack Query, ensuring robust communication between frontend and backend services

Uniccon Group

Frontend Developer

Aug '22 - Dec '23

- Designed and built scalable front-end solutions for high-traffic applications using React, Next.js, and Redux Toolkit
- Improved application security and user experience by implementing global state management with Zustand, persistent login sessions, and multi-role dashboards
- Reduced user-reported issues by 20% through proactive debugging and conducting rigorous code reviews

HiiT Plc

Frontend Developer (Intern)

Sep '21 - Jul '22

- Contributed to the development of interactive web applications using React, Next.js, and TypeScript within an agile team
- Enhanced UI/UX by implementing smooth animations with Framer Motion and GSAP and adhering to accessibility best practices
- Gained experience in a microservice-based frontend architecture using Next.js within an Nx monorepo
